The Episcopal Church was founded in the United States in 1789. From its inception, the church has been divided on the issue of race. Some Episcopalians believed that African Americans should be fully integrated into the church, while others believed that they should be segregated into separate congregations. This debate has continued for centuries, and it has often been a source of great conflict within the church.

In *Black and Episcopalian*, author Randall M. Miller tells the story of the struggle for inclusion of African Americans in the Episcopal Church. Miller draws on extensive research to provide a comprehensive account of this complex and often painful history. He shows how African Americans have fought for their rightful place in the church, despite facing discrimination and racism from both within and outside the church.

*Black and Episcopalian* is a powerful and moving book that shines a light on a hidden chapter of American history. This book is a must-read for anyone who wants to understand the complex relationship between race and religion in America.
