Sam Jordison's **Enemies of the People** is a timely and provocative book that examines the rise of populism and the erosion of trust in institutions.

Jordison argues that we are living in a time of great upheaval and that the old ways of doing things are no longer working. He calls for a new politics that is based on empathy and understanding, and that puts the needs of the people first.

Enemies of the People is a must-read for anyone who wants to understand the current political climate and the challenges facing our democracy.

The Rise of Populism

Populism is a political ideology that emphasizes the common man and the need for change. Populist leaders often appeal to the fears and frustrations of the people, and they promise to bring about a better future. However, populism can also be dangerous, as it can lead to scapegoating and authoritarianism.

Jordison argues that the rise of populism in recent years is a symptom of the deep dissatisfaction with the status quo. He points to the growing gap

between the rich and the poor, the erosion of the middle class, and the decline of trust in institutions.

Jordison warns that populism can be a dangerous force, but he also believes that it can be a force for good. He argues that populism can be used to challenge the status quo and to fight for the needs of the people.

The Erosion of Trust in Institutions

Trust in institutions is essential for a healthy democracy. However, trust in institutions has been declining in recent years. This is due in part to the rise of populism, which has eroded trust in the government, the media, and other institutions.

Jordison argues that the erosion of trust in institutions is a serious threat to our democracy. He points to the fact that people are increasingly turning to alternative sources of information, such as social media, which can be less reliable than traditional news sources.

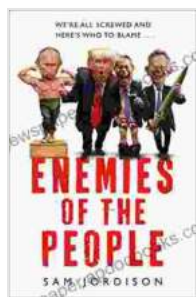

Jordison calls for a renewed commitment to trust in institutions. He argues that we need to rebuild trust in the government, the media, and other institutions. He also calls for a new politics that is based on empathy and understanding, and that puts the needs of the people first.

A New Politics

Jordison argues that we need a new politics that is based on empathy and understanding, and that puts the needs of the people first. He calls for a politics that is focused on solving problems, not on scoring political points.

Jordison believes that we can create a better future for ourselves and our children. He calls for us to come together and work towards a more just and equitable society.

Enemies of the People is a timely and important book. It is a must-read for anyone who wants to understand the current political climate and the challenges facing our democracy.
