The COVID-19 pandemic has been a global tragedy, but it has also been a political and economic crisis. In *Where Are We Now? The Epidemic As Politics*, [Author's Name] examines the political, economic, and social forces that have shaped the pandemic, and offers a vision for a more just and equitable future.

The decisions that governments and businesses have made about how to respond to the pandemic have had a profound impact on its course, and have exacerbated its economic and social consequences.
