Uncovering the Power of Memory

Memory is not merely a passive repository of the past; it is a dynamic force that shapes our present and influences our future. Megalogenis argues that women have harnessed the power of memory to challenge dominant narratives, expose injustices, and create lasting social change.

The book explores how women have mobilized memory in various contexts, from personal testimonies and memoirs to public protests and artistic expressions. Through these diverse channels, they have given voice to their experiences, reclaimed their histories, and empowered themselves and others.

- Create transformative policies and practices that address gender inequality
